VISION & STRATEGY

1. We are broadly supportive of the vision set out for Crawley in 2037, indeed it is unobjectionable that Crawley should be a place that people enjoy and want to live, work and visit. A key element of this is based on sustainable economic growth, accordingly we support the Council's approach which is that:

Crawley will strive to be the premier town between London and the South Coast providing jobs, learning and development opportunities and a leisure and cultural offer that is attractive to residents and visitors. Crawley will continue to be an economic leader, with a diverse, resilient and productive economy that meets the needs of the borough and supporting the overall prosperity of the region. An environment that supports and encourages new and established businesses to grow and flourish will be developed, and supporting necessary infrastructure, including telecommunications, will be enhanced. Crawley will be the first choice of business location for a variety of sectors and both domestic and international markets. Innovation, entrepreneurship and advanced technologies will thrive, and our community will benefit from access to high value, sustainable economic growth. Additional jobs will have been created for people living in and around the Crawley area across a diverse range of sectors, including creative industries. Access to jobs will be supported by learning and development opportunities giving people a real choice about the work they can and want to do.

2. It is clear that a strong approach towards employment land is required more than ever in Crawley with over half of the borough's jobs falling into the vulnerable or very vulnerable sectors. In this regard, we strongly support the Council in its assertion that in light of the COVID 19 pandemic "*it is vital to plan positively to support economic recovery, particularly within the most affected aviation related sectors, whilst facilitating an expansion and diversification of Crawley's economy that will enable it to adapt to unforeseen economic circumstances that could otherwise hinder economic growth*".
3. The plan recognises that there are significant land supply constraints faced by the borough and that a positive approach is required to support economic recovery. We are strongly supportive of this approach given the implications of COVID 19 and the need to significantly increase economic diversification. We note that there is currently an opportunity to increase the supply of employment land to help diversify the economy of the Authority so that it is not so dependent upon the recovery of air travel. This approach underlies our clients position, the contribution that their land can make to the plan and forms the basis for our representations.
