Regulation 19 Consultation

Representation on behalf of the Wilky Group

Policy GI1: Green Infrastructure

June 2021

1.0 Introduction

- 1.1 This representation is submitted on behalf of The Wilky Group (TWG), which has a long-standing interest in the promotion of strategic employment land within the Crawley Borough Council (CBC) area. This representation relates to Policy G11 Green Infrastructure in the draft Crawley Borough Local Plan, 2021 (DCBLP).
- 1.2 TWG owns about 48 ha (119 acres) of land east of Gatwick Airport. The land has been promoted by TWG as a strategic employment opportunity known as Gatwick Green (the Site). The Site is proposed for allocation as a Strategic Employment Location (SEL) of 47 ha (116 acres) in the DCBLP under Strategic Policy EC4 as a comprehensive industrial-led development of predominantly storage and distribution uses under use class B8.
- 1.3 This representation notes that Policy G11 is broadly in accordance with the advice in the National Planning Policy Framework (NPPF, 2019) and the Planning Practice Guidance (PPG). It also confirms that Gatwick Green can be masterplanned and designed so as to be in accordance with the key objectives contained in Policy G11.

2.0 Policy G11 – intent of policy and compliance

Intention of the policy

- 2.1 The purpose of Policy G11 is to conserve and enhance the multi-functional green infrastructure network in Crawley so as to mitigate stress on the natural environment.
- 2.2 Development within the Borough should protect and enhance the existing green infrastructure and take a positive approach to design and integration of new green infrastructure networks. Large-scale development is required to provide new links and incorporate blue infrastructure into the development design.

National planning policy and guidance

- 2.3 The NPPF sets out the objectives of the planning system with regard to contributing to enhancing the natural and local environment (para 170).
- 2.4 The NPPF policy is supplemented by more detailed guidance in Planning Practice Guidance (PPG) on Green Infrastructure¹. PPG sets out what planning goals green infrastructure can achieve, including building a strong and competitive economy,

¹ <https://www.gov.uk/guidance/natural-environment>

achieving well-deigned places, promoting heathy and safe communities, mitigating climate change, flooding and coastal change and conserving and enhancing the natural environment.

- 2.5 It is considered that Policy GI1 provides appropriate and proportionate protection for green infrastructure in the Borough, consistent with national planning policy and guidance. Policy GI1 has been designed to ensure that these matters are addressed in the planning process – in relation to Gatwick Green, this will include the preparation of the masterplan, and an outline planning application supported by an assessment of green infrastructure in accordance with the requirements in Strategic Policy EC4.

3.0 Implications for Gatwick Green

- 3.1 Most of the Gatwick Green allocation forms part of the Gatwick Woods Biodiversity Opportunity Area (BOA) to which Policy GI1 applies. The overall masteplanning of the Site under Strategic Policy EC4 will need to have regard to the BOA and any other green infrastructure considerations that arise from more detailed work. These consideration are reflected in the Development Framework Plan (DFP – Appendix 8 to TWG’s representation on Strategic Policy EC4) and will be taken into account in the design and operation of the proposals for the Site. These will include:

- The inclusion of landscape buffers and public open space to address separation of Gatwick Green from Gatwick Airport, Horley and the wider countryside.
- The integration of trees, hedgerows and biodiversity into the layout and design and enhance blue/green infrastructure in the context of the Gatwick Woods Biodiversity Opportunity Area.
- The integration of ‘important’ hedgerows and retaining a green buffer along Balcombe Road.

- 3.2 The Appendices to TWG’s representation on Policy EC1 of the DCBLP (2020) (2020 Appendices) form part of the Council’s evidence base (Consultation appendix 4b: Wilky Group appendices combined). The environmental considerations relating to green infrastructure are addressed in the 2020 Appendices and subject to Addenda contained at Appendices 3 – 7 of TWG’s representation on Strategic Policy EC4. These Addenda confirm that the original recommendations remain valid in the context of the proposed allocation of Gatwick Green under Strategic Policies EC1 and EC4 and any other changes in circumstances.

- 3.3 The Addenda to the Landscape Character and Visual Appraisal, the Updated Preliminary Ecological Appraisal and the Hedgerows Assessment confirm that the Site can be

developed whilst respecting the green infrastructure in and around it, and include recommendations on appropriate avoidance and mitigation measures. These matters will be addressed at the planning application stage and set out in reports on biodiversity and ecology and landscape matters and a Design and Access Statement.

4.0 Conclusions

- 4.1 TWG acknowledges the need for the Gatwick Green proposals to address the green infrastructure considerations relating to the Site and referenced in Policy GI1. All feasibility investigations to date indicate that the 24.1ha minimum requirement can be delivered in accordance with these requirements. The masterplan proposals for the Site required under Strategic Policy EC4 will have regard to these considerations in achieving a sustainable and well-designed scheme for the Site.
- 4.2 It is considered that Policy GI1 provides appropriate and proportionate requirements for the provision of green and blue infrastructure, consistent with national policy. Development at Gatwick Green as allocated in Strategic Policy EC4 will be designed to incorporate green infrastructure which interlinks with the existing network and will incorporate innovative drainage solutions appropriate for the Site's location in proximity to an airport.
