6. Please give details explaining your response to 5.1, 5.2, or 5.3 below. Please be as clear as possible.

As stated in the council's own assessments and reports the area proposed for 15 houses is in a conservation area - any building here does not take into consideration the council's own demands for enhancement and/or preservation of character, biodiversity and heritage. There is significant evidence that this site is the habitat of Greater Crested Newts, along with other amphibious life forms. A number of aged trees are located at and around the site, which formed part of the historic parkland. The moat indicates that this is an archeologically sensitive and valuable site. This is a valuable green pocket that links with the large parkland and churchyard and the ancient Worth forest, any development here will be detrimental to the character of Worth, and more catastrophically, to protected species.

In addition - I find it hard to understand why anyone would consider that site - adjacent to the motorway and a commercial development, fit for homes. Frequently there is a stench of solvents/paint, continual alarms, lorries reversing, bright lights and disturbance.

In addition, there will be increased traffic, and the road built for access to these planned houses will be used for parking by the employees of the commercial development.

If required, please continue your response on an additional piece of paper and securely attach it to this response

- 7. Please set out what modification(s) you consider necessary to resolve the issues you have identified above. You need to state why this modification will make the Local Plan legally compliant or sound. It would be helpful if you are able to suggest how the wording of any policy or text should be revised. Please be as clear as possible. Any non-compliance with the duty to co-operate is incapable of modification at examination.**

*Your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification, as there will not normally be a subsequent opportunity to make further representations. **After this stage, further submissions will only be at the request of the Inspector, based on the matters and issues s/he identifies for examination.***

- 8. If your representation is seeking a modification, do you consider it necessary to participate in the public examination hearings? (Please tick)**

No, I do not wish to participate in the examination hearings

Yes, I wish to participate in the examination hearings

- 9. If you wish to participate in the public examination hearings, please outline why you consider this to be necessary:**

I don't consider it necessary - only that I have considered and close knowledge of this space and the wildlife.

The Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate at the public examination.

If you would like to make a representation on another policy or part of the Local Plan then please complete a separate PART B section of the form or securely attach an additional piece of paper.
